DON'T COME
IF YOU...

SIPS & SERENADES ISN'T FOR YOU IF...

- You are not ready for your wine to hit a high note. 4 organic wines paired with live arias? It's a sensory explosion you might not be able to handle.
- You think stunning venues are overrated. The [Dymon Wine Cellar](#) is too chic and exclusive for someone who'd settle for "meh."
- You feel that unlimited, PREMIUM bites aren't your thing. A complimentary buffet by [Stelvio Toronto](#)? Sounds too indulgent, right?
- You don't want to meet fabulous people. This is a crowd that's all about wine, opera, and unapologetic fun. If that's not your scene, stay home.
- You're skeptical about tasting wine through song. A live soprano pairing each sip with an aria might just blow your mind.

If none of these scare you off, congratulations—you're officially ready for a night like no other.
