

Robert, it did not take long for the Carney Liberals to start hiding from Canadians after getting their majority.

Their first order of business was to systematically move committee meetings in secret.

They want to shut down investigations, block documents from being released, and change legislation without Canadians knowing.

No public scrutiny.

No accountability.

No transparency.

They don't want you to know what is really going on.

Mark Carney is choosing control, secrecy, and backroom deals instead of being honest with Canadians.

Conservatives are fighting back, but we need you with us.

We need to get loud so the media can't ignore this.
